in the factory of

Kasteelstraat 9 - 8980 Geluvelde - Belgium

put on the market by

Prefaxis nv - Touquetstraat 228 - 7783 Ploegsteert (Le Bizet) - Belgium

in conformity with

NBN B 21-612:2010

The BENOR certification of a product certifies, through a periodical external inspection, that there is sufficient confidence that the holder of the certificate is able to guarantee product compliance to the applicable specifications on a permanent basis.

Where appropriate, the holder of the certificate gives details about the certified standard products in the BENOR annex which constitutes a permanent annex of the BENOR certificate and is authenticated by PROBETON.

By granting and maintaining the certificate, PROBETON gives the holder of the certificate the right to use the BENOR mark. Proof of delivery of a product under the BENOR mark is given by an appropriate BENOR identification on the product or on the packaging. The use of the BENOR mark does not release the holder of the certificate from his responsibilities as regards the delivered product.

Certification covers exclusively the manufacturing characteristics.

The certificate (administrative adjustment) is valid from 2023.01.05 till 2026.01.02 at the latest. A first certificate for this factory was issued on 2017.01.02. The validity of this certificate can be checked on the website www.probeton.be.

Delivered in Brussels, on

2023.01.05

ir. P. De Winne - Chairman

The BENOR mark is a registered collective mark which belongs to the Belgian Standardization Institute (NBN). The BENOR certification is a voluntary system developed by consensus among the stakeholders.
